

National Dairy Animal Well-Being Initiative  
Co-op/Processor Endorsement Form

Dairy producers have a long tradition of providing good care for their animals. We recognize our ethical obligation to provide appropriate care to ensure the well-being of all animals in our producers' herds.

Following the principles and guidelines established by the National Dairy Animal Well-Being Initiative demonstrates our commitment to providing appropriate care for our producers' animals and honestly and accurately reflects what takes place on America's dairies.

We endorse the National Dairy Animal Well-Being Initiative and encourage other co-ops or processors to do the same.
